

Smile

RuPaul

Hi hoe, what's wrong?
Is your lips overdrawn?
'Cause the face is looking long like
Oh no, dark clouds be on ya
Face stuck looking like a picture of Melania

I see you woke up and chose violence
Did you hear that bitch?
I think it was a siren
And the police are looking for you
They saw what you did to the vibe
And said we're dealing with a homicide

(Oh my bad)
If that's your resting bitch face
It's truly a mistake, but (Too bad)
But we're not doing this tonight
Simple advice, yeah, let me change your life

Smile, smile, smile
Fix your face, fix your life
You could start with a smile
Smile, smile, smile
Face legendary iconic
Throw a smile on it

Tell me why and how you leave the house
With a frown up on your mouth
Stank face on you like you smelt something funny
When the attitude crummy make a bad bitch ugly

Stepping in the building lookin' like a villain
Tell me why you trippin' I ain't kidding
Bitch you scaring all the children
We tryna vibe tonight, alright
Meanwhile this child look like she died inside

(Oh my bad)
If that's your resting bitch face
It's truly a mistake, too bad (Too bad)
'Cause we're not doing this tonight
Simple advice, yeah, let me change your life

Smile, smile, smile
Fix your face, fix your life
You could start with a smile
Smile, smile, smile
Face legendary iconic
Throw a smile on it

Fix your face, fix your life
You could start with a smile
Smile, smile, smile
Face legendary iconic
Throw a smile on it
