

# Perfect Fit

Rupee

Night time movements  
Dim blue lighting  
All bodies in sync  
Waistline moving in  
And over everything  
I hear a loud shouting  
I turn around and see  
You walking away from him

I'll never leave you high and dry in the dead of the night  
Like your waste man did  
He too bad minded  
And I can see you holding back  
Cause I've been where you at  
But we're the perfect fit  
And once you realise this

You'll never feel safer  
Aye aye aye  
Than here in my arms  
Come let me show you  
Don't wait til later  
Aye aye aye  
Just come to my arms  
I wanna make you mine

Bring your body in closer  
I have plenty to show yuh  
Woman come let me love yuh  
The way a man is supposed to  
Real talk I ain't no poser  
Move your body slow motion  
Make you feel like you're floating  
Floating floating

You're in time with me now  
Eyes fall to the ground  
Feel your fingers between my fingers  
As they pulse to the sound  
Around and around  
So slow it hurts  
As the walls are crumbling down

I'll never leave you high and dry in the dead of the night  
Like your waste man did  
He too bad minded  
And I can see you holding back  
Cause I've been where you at  
But we're the perfect fit  
And once you realise this

You'll never feel safer  
Aye aye aye  
Than here in my arms  
Come let me show you  
Don't wait til later  
Aye aye aye

Just come to my arms  
Girl I wanna make you mine

Bring your body in closer  
I have plenty to show yuh  
Woman come let me love yuh  
The way a man is supposed to  
Real talk I ain't no joker  
Move your body slow motion  
Make you feel like you're floating  
Floating floating

Bah badadah badadah badadah  
Its ah two way  
Ah two way

Bah badadah badadah badadah  
Its ah two way  
Ah two way

Girl I can see you holding back  
Cause I've been where you at  
But we're the perfect fit  
And once you realise this

You'll never feel safer  
Aye aye aye  
Than here in my arms  
Come let me show you  
Don't wait til later  
Aye aye aye  
Just come to my arms
