

# Freedom

Rush Of Fools

Hello.

You think you're all alone  
When everybody knows  
We all have the scars inside  
That tear us apart night after night  
Is this where you are?

[CHORUS:]

Step out to the light  
Come outside  
Step out to the day  
It'll be okay  
We're all the same, don't be afraid  
Let your freedom begin  
Let your freedom begin here

Goodbye.

Gone are the days  
We buy the lie.  
We try to pretend, we're doing fine  
But we're not right, we're not right  
Is this where you are?

[CHORUS]

All the secrets that we keep  
Are making us  
Who we don't wanna be  
It's killing us  
Like we're drowning in the sea  
Just coming up  
We're just coming up for air  
Tell me are you there?

[CHORUS x2]
