Available Light

The restless wind Has seen all things In every kind of light Rising with the full moon To go howling through the night

The sleepless wind Has heard all things Between the sea and sky In the canyons of the city You can hear the buildings cry

Oh the wind can carry All the voices of the sea Oh the wind can carry All the echoes home to me

Run with wind and weather To the music of the sea All four winds together Can't bring the world to me Chase the wind around the world I want to look at life In the available light

Play of light A photograph The way I used to be Some half forgotten stranger Doesn't mean that much to me

Trick of light Moving picture Moments caught in flight Make the shadows darker Or the colors shine too bright

Oh the light can carry All the visions of the sea Oh the light can carry All the images to me

Run to light from shadow Sun gives me no rest Promise offered in the east Broken in the west Chase the sun around the world I want to look at life In the available light

All four winds together Can't bring the world to me Shadows hide the play of light So much I want to see Chase the light around the world I want to look at life In the available light I'll go with the wind I'll stand in the light
