

## Inside Look

Russ Taff

He had such good intentions  
High finance dreams  
Gonna build the kingdom  
Doing his gospel thing  
Now he's learning to talk  
A real good game  
He knows all the right cliches  
But good intentions don't get his quota inside  
When did it start to change?  
Compromise for the dollar's sake?

Chorus:

Have you really taken an inside look?  
Are you hearing what your actions say?  
Have you really taken an inside look?  
Do you think that God would do it that way?

Now he sits behind a big oak desk  
And he's talking on the phone  
Spinning wheels, making deals  
Just see how far he's come  
He says he hasn't really changed  
It's all for the sake of the dream  
Just doing what he has to do  
The end justifies the means  
Cause when push comes to shove  
You better look out for number one

Repeat Chorus

Oh Lord, don't let us waste our lives  
Trying to build self-serving dreams  
Religious schemes  
And Lord, don't let us fool ourselves  
Hiding what we really mean  
Honesty  
Lord, help us see integrity
