

Asshole

Russ

People tell me I'm an asshole
Tell me something that I don't know
Ask me how I'm so casual
I don't know, it comes natural
People tell me I'm an asshole (Oh, oh)
Tell me something that I don't know (Oh, oh)
Ask me how I'm so casual (Yeah, yeah, yeah)
I don't know, it comes natural

Uh, never take a rest day, million dollar sensei
Your boyfriend couldn't fuck with me on his best day
I be wearin' diamonds, y'all be wearin' rhinestones
Y'all be in the same place, I be switchin' time zones
Every day I celebrate, every day a milestone
When my phone vibrate, y'all be gettin' dial tones
I don't wanna talk to niggas I done passed up
Please respect my space like NASA
Don't say shit when I go in public
When I'm in your presence, so disgusted
I don't feel your energy, I hope it doesn't
Rub off on me, please don't touch me
Me and you have nothin' in common
I'm so disgusted, it makes me wanna vomit
If you have my number, please go delete that
I'ma always see that as positive feedback

People tell me I'm an asshole
Tell me something that I don't know

On team R-U-double-S with the yacht
In his brain way before he made a paddle boat (Thinkin')

I'm at they throats, melange coat, got a weapon in it (Brrah)
You know my life by itself is a lot to handle
Payroll so full like a gospel sample
Let alone my career with my peers in this shit (Yeah)

Clown for a year and disappear real quick (Yeah)
When I say the truth, it's like they fear that shit
Cool, drown on their boats, I'ma steer my ship
Just watch (Watch), they gon' try and ride the wave (Yeah)
They gon' double back on statements, tryna hide the hate, fuck it
Trustin' season is a wrap (Yeah)
I'm up in every meeting with a bat and I'm comin' back (Hah)
It's a joke, not literally, figuratively
Sometimes I think if I was quiet, how much bigger I'd be
But then I'm livin' for y'all (Fuck you), not livin' for me
Couple million dollar difference ain't a difference to me (Cash)
Got a really big bank, but I ain't afraid to blow it
