

I hope you feel....

I hope you feel what I'm...saying

Yeah, connected to the infinite, Hope you feel the same way
Don't let the lies blind you and misguide you, Find the gateway
To the truth, I found my portal in this booth
I'm moving with the universe, hope the world follows suit
Cause it's less about diamonds, more about hearts
Less about being in the clubs, and drinking spades to play the
part

The flame i spark is from the embers of the truth we all belong
to

The truth we all came from, that will be here when we're gone,
too

Watching from a distance like a hawk, I see the prisons
That men and women build inside their mind and chose to live in
Or rather die in, that's not living if you ask me
Misery loves company, and its happy just to latchkey
Child who learned, to be alone and fell in love with it
Unspoken agreement with the soul, don't break the covenant
I'm glad you see the surface but what matters is what's under i
t

But don't get too attached because that path just leads to suff
ering

When you start stumbling, don't grab a liquor bottle and start
guzzling

Try to chase your hate away and replace it with your love of gi
n

Tell it's 1 AM and you've been gone, and you looking for the an
swer

Don't wanna answer, when the answer's been calling...

I said the answer's been calling you!

I hope you pick up, I hope you pick up...

I hope you feel connected...

I hope you feel...
