

# Crown

Russ

Yeah

Girl, you so lowkey, you make your money, mind your business  
Ain't no fucking rapper in this world could say he hit this  
You badder than the famous girls who chase after attention  
College-educated, in case I forgot to mention

Here's your crown  
You deserve a crown  
I ain't playin' witcha  
Crown  
You deserve a crown  
I ain't playin' witcha

I been livin' wild, lotta bodies to my name  
But ever since I met you, I think that I'm out the game  
I'm just tryna prove it, lemme fly you out to see  
Ain't no one around just you, me, Hennessy and weed  
You ain't broken, you just a beautiful mosaic  
Love is in the air, I'm just hopin' that you taste it  
I'm just hopin' that you don't think that I'm playin'  
I'ma just try to explain it, yeah, yeah

Girl, you so lowkey, you make your money, mind your business  
And ain't no fucking rapper in this world could say he hit this  
You badder than the famous girls who chase after attention  
College-educated, in case I forgot to mention

Here's your crown  
You deserve a crown  
I ain't playin' witcha  
Crown  
You deserve a crown  
I ain't playin' witcha

I hear that you're newly single  
Here I go, work my one two  
Heard your ex just ran away  
I'll be someone you can run to  
You play hard to get, I like that  
Raise your glass like pink  
I look challenge in the eye  
And I give that shit a wink  
What you think? Have a drink?  
Marinate, get back to me  
Yung God deserves a goddess  
All these other women blasphemy  
Rock that gown and cap for me  
And she ain't gotta cap for me  
Pussy screaming, "Sing to me"  
Mouth be screaming, "Rap to me"

Girl, you so lowkey, you make your money, mind your business  
And ain't no fucking rapper in this world could say he hit this  
You badder than the famous girls who chase after attention  
College-educated, in case I forgot to mention

Here's your crown  
You deserve a crown  
I ain't playin witcha  
Crown  
You deserve a crown  
I ain't playin witcha
