

# Down For You

Russ

I need crazy bitch thats down for me  
I need a little something wild and free  
I need the right amount of attitude  
She checks herself but she checks me too  
I need her to reciprocate all my love  
Get drunk with me even if she loves blunts  
Baby bring that accent out for me  
I need a crazy bitch thats down for me

Cuz baby I'll be down for you  
I promise I'll be down for you  
Even when I'm not around  
Somewhere outta town  
I promise I'll be down for you

I need a crazy bitch thats down for me  
But not the type of crazy that don't let me breath  
Baby fall back I'm executing Gods moves  
That's just in my blood  
That's just how a God moves  
Hope you understand and you catch my wave  
Hope you know you're bad as fuck but not too vain  
I need someone who really loves me for me  
I need a crazy bitch thats down for me

Cuz baby I'll be down for you  
I promise I'll be down for you  
Even when I'm not around  
Somewhere outta town  
I promise I'll be down for you

I need a crazy bitch thats down for me  
She's a movie star without the screen  
I don't need you with me if you gonna be impulsive  
I don't need no selfish inconsiderate bullshit  
I don't need your mouth running when it's not called for  
I don't need your text what the fuck you think I called for  
Ask yourself what you really wanna be  
I need a crazy bitch thats down for me

Cuz baby I'll be down for you  
I promise I'll be down for you  
Even when I'm not around  
Somewhere outta town  
(I need a crazy bitch thats down for me)
