

Forever

Russ

You know everything about me, I know everything about you
You don't wanna live without me, I don't wanna live without you
That's why we gotta stay together
You can't keep leaving, expect me to believing that you want fo
rever
I'm scared I love you more than you love me
Tell me that you're down but you up and leave, oh
You can't keep leaving, expect me to believing that you want fo
rever

Yeah, yeah, we don't know how to fight, girl, we amateurs
We get defensive, start forgetting the parameters
We spiral down the stairs, we need guidance, where's the banist
er?
Now we gonna spend the next 48 being janitors
Mopping up the mess that we made, who calls who first?
Chomping at the bit, but shit, my tooth hurts
We shoulda let the dust settle instead of screamin', poppin' bl
ood vessels
Fightin' dirty, girl, we mud wrestle

You know everything about me, I know everything about you
You don't wanna live without me, I don't wanna live without you
That's why we gotta stay together
You can't keep leaving, expect me to believing that you want fo
rever
I'm scared I love you more than you love me
Tell me that you're down but you up and leave, oh
You can't keep leaving, expect me to believing that you want fo
rever

Yeah, we don't wanna be each other's exes, why we crossing line
s then?
Our love may not be six-feet under yet, but shit, it's 5'10"
We on different pages, we misread each other
We see red, we don't see each other
We completely under the spell of our upbringing
While we're still afloat, let's decide if we're done sinking
We need resolution, regulation, and respect
'Cause I'm comin' at your character, you comin' out your neck

You know everything about me, I know everything about you
You don't wanna live without me, I don't wanna live without you
That's why we gotta stay together
You can't keep leaving, expect me to believing that you want fo
rever
I'm scared I love you more than you love me
Tell me that you're down but you up and leave, oh

You can't keep leaving, expect me to believing that you want fo
rever
