

Give Up

Russ

Remember how we said we want this forever?
But we ain't make it to December
I saw this comin' in September
But I didn't care 'cause I loved you
But now I'm on the real of what you've been up to
Now I'm on the real on who you let touch you, shit
This is not a diss, I had to come to
But you didn't care

I did all I could (Yeah)
I think I did everything I should
Ain't no way I'd give up, but you would
Ain't no way I'd give up, but you would, damn
I did all I could
I think I did everything I should
Ain't no way I'd give up, but you would
Why the fuck you give up all your good? Guess not

And when you call, it rings
Shit, when I call, it rings
Thought we were more than just a fling, a fling
Look at what I bring, I bring (Yeah)
Don't you want this bag? I know you do
You can't get this bag, you know it's through
'Cause we were more than just a fling, guess we not
Now I'm where I am, you know you not

I did all I could (Yeah)
I think I did everything I should
Ain't no way I'd give up, but you would
Ain't no way I'd give up, but you would, damn
I did all I could
I think I did everything I should
Ain't no way I'd give up, but you would
Why the fuck you give up all your good? Guess not
