

## Gorilla Windmill

Russ

Windmill, windmill why so slow?  
First we get high then we get low  
The quicker you turn, the faster I go  
I just want to know

Move a little bit  
Show me you can move a little bit  
I really, really want you

I used to run a race against a ghost, until I stopped  
I used to run a race against myself, I always lost  
And I always had to watch, but now I'm tryna keep it simple  
Never felt the love like I won that winbow  
Dean of the shit, you're a pawn of this shit  
I don't really care about you, carry on with your shit  
We need bond in this bitch, gettin' on in this bitch  
My sister growin' up to fast, bonds gettin' lit, shit

Windmill, windmill why so slow?  
First we get high then we get low  
The quicker you turn, the faster I go  
I just want to know

I swear you came around too often  
I thought you were off him  
And I think I just fell, and I'm lost then  
Now you just tryna play with me  
What the fuck kinda game is this?  
What the fuck kinda game is this?  
One, two, three, four  
Show me that you want more

Windmill, windmill why so slow?  
First we get high then we get low  
The quicker you turn, the faster I go  
I just want to know

Windmill, windmill why so slow?  
First we get high then we get low  
The quicker you turn, the faster I go  
I just want to know

Out here livin', out here breathin'  
No cuts on my wrists, I got my freedom  
I can just [?]  
Just live, live, live  
'Cause its boss conversation with my dad sippin' tequila  
Talkin 'bout life, it doesn't get much realaaah'
