Russ

Look around me baby, all you see is cash  
Look who's laughing now, they always used to laugh  
Look who's winning and upgraded from the past  
Just look, just look, yeah yeah  
Look at my life, look at your life, look at my bank account  
Look at me work, look at me prosper, look at me make it out  
Look at me glow, look at me glisten, look at me stunt on you  
This is for the ones in your life who know they ain't got nothin on you

I just made a million dollars in two weeks  
I just bought my mom a car for cash, I told em fuck a lease  
Look at me:  
Blocked your dream girl, she was tweakin'  
Nah we weren't dating, just fuckin' for the weekend  
You was tripping, I was dipping  
You caught feelings, I didn't  
Smash Mouth life, swear I'm feelin' like an All Star  
Went and told my momma you ain't gotta shop at Wal-Mart no more

Look around me baby, all you see is cash  
Look who's laughing now, they always used to laugh  
Look who's winning and upgraded from the past  
Just look, just look, yeah yeah  
Look at my life, look at your life, look at my bank account  
Look at me work, look at me prosper, look at me make it out  
Look at me glow, look at me glisten, look at me stunt on you  
This is for the ones in your life who know they ain't got nothin on you

Millionaire before a label, that's called leverage  
All the real ones gon' relate  
All the fake ones gon' get jealous  
Look at me:  
Flew your wife out she forgot her wedding band  
Gettin' so much money I forgot I spent like 20 bands today  
Flip tricks, but I don't play X Games  
I been traveling, currency exchange  
A year rent, that's what the set pays  
Fantasy girls get turned into sex slaves  
That's a light flex, cash when I speak that's a mic check  
You sitting down, I suggest that you stand up  
In Russ they trust, whole world got they hands up, look

Look around me baby, all you see is cash  
Look who's laughing now, they always used to laugh  
Look who's winning and upgraded from the past  
Just look, just look, yeah yeah  
Look at my life, look at your life, look at my bank account  
Look at me work, look at me prosper, look at me make it out  
Look at me glow, look at me glisten, look at me stunt on you  
This is for the ones in your life who know they ain't got nothin on you
