

# Lost

Russ

I get lost, lost, lost, lost in you  
I get lost, lost, lost, lost, lost in you

Yeah, now tell me baby are you real  
I know you feel, like I feel  
Now tell me baby are you lost in you

I hope you recognize the difference baby girl, cause I sure do  
When we floating on that cloud, I know you feel the fuckin' truth  
Bodies drip, soaked in seduction, obviously sippin'  
This ain't home but this is something real

I get lost, lost, lost, lost in you  
I get lost, lost, lost, lost, lost in you

You say you knew it when you met me, you felt our souls unite  
You say I got your heart, we're clinging to this roller coster ride  
So lost in love, blinded from all the fear  
Please don't go ghost, I make your worries disappear  
You say each breath is for you  
I'll never let you go  
Your love is all I wanna know

I get lost, lost, lost, lost in you  
I get lost, lost, lost, lost, lost in you  
I get lost, lost, lost, lost in you  
I get lost, lost, lost, lost, lost in you
