

## Nighttime (Interlude)

Russ

And when the nighttime comes  
We don't bite our tongues  
We gon' let that shit fly tonight  
Singing songs that we love  
Soon enough we make up  
We gon' let that shit die tonight

Do you understand my love?  
Please don't look at me and shrug  
I've been trying more than ever  
If this doesn't last forever  
Least we spent the time we did  
Helped each other through our shit  
Yeah-yeah, yeah-yeah...

Do you understand my love?  
Please don't look at me and shrug  
I've been trying more than ever  
If this doesn't last forever  
Least we spent the time we did  
Helped each other through our shit  
Yeah-yeah, yeah-yeah...

Yeah, I'm rollercoasting  
In my holy ghost and  
Singing only portions  
Can't avoid emotions  
But we try our hardest  
To hide regardless  
Now it's been so long  
We don't know where our heart is

Yeah, I'm rollercoasting  
In my holy ghost and  
Singing only portions  
Can't avoid emotions  
But we try our hardest  
To hide regardless  
Now it's been so long  
We don't know where our heart is

And when the nighttime comes  
We don't bite our tongues  
We gon' let that shit fly tonight  
Singing songs that we love  
Soon enough we make up  
We gon' let that shit die tonight

Girl, come here and stop playing with me  
This shit is dumb, why the fuck you think you laying with me?  
Bitch, you the one, why the fuck you think you staying with me?  
'Cause I want you and nobody else

You-ooh-ooh...  
You-ooh-ooh...  
You-ooh-ooh...  
You-ooh-ooh...

And when the nightttime comes  
We don't bite our tongues  
We gon' let that shit fly tonight  
Singing songs that we love  
Soon enough we make up  
We gon' let that shit die tonight

(Another one of my hoes is gone, is gone, is gone  
Another one of my hoes is gone, is gone, is gone)

Do you understand my love?  
Please don't look at me and shrug  
I've been trying more than ever  
If this doesn't last forever  
Least we spent the time we did  
Helped each other through our shit  
Yeah-yeah, yeah-yeah...

And when the nightttime comes  
We don't bite our tongues  
We gon' let that shit fly tonight  
Singing songs that we love  
Soon enough we make up  
We gon' let that shit die tonight
