Russ

No fake shit against me shall prosper  
Yes I came I saw I conquered  
No fake shit against me shall prosper  
Yes I came I conquered  
And they don't wanna see you win  
So its fuck them till the end  
And they always gonna hate  
Always gonna have some shit to say  
And they don't wanna see you win  
So its fuck them till the end  
And they always gonna hate  
Always gonna have some shit to say

Eating in Italy  
Golfing in Glasgow  
Swimming in Switzerland  
Mr international  
All off these rap flows  
All off these chord progressions  
All of these kicks, snares, melodies and tour investments  
I put my own money up so no one tells me shit  
I know what you about to say before you tell me it  
You so predictable  
I'm so in tune with it  
I gotta folder with a lotta women's nudes in it  
I gotta Rolex  
I gotta lotta chains  
But none of that is worth as much as memories that I've gained  
I'm flying PJ's  
50, 000 each way  
Live from the peach-state  
I hit the sweepstakes  
These days they all scream Russ  
Some are screaming hate  
Some are screaming love  
Fuck it everytime you judge I get paid  
That's what my mom told me  
I'ma cop the wheels of fortune cause you owe me  
Pat sayjak shit, pat sayjak shit  
Might get a maybach for maybach just to say that shit  
I gave a million to the government  
I pay taxes  
Did I say government I meant the mob  
I hate that shit  
Legal extortion of half my fortune  
Soon as the tour ends a portion of my racks like Nordstrom gets taxed  
If that's the cost of doing business dog I need loopholes  
Luckily the money getting longer than manute bol  
Sumo it's time to put my foot down  
Picked up the gin around the time I put the kush down  
I still smoke a little but not without a shot in me  
Connected to my higher self yeah that's the God in me  
I'm just tryna stay on top like an apostrophe  
Bitch I'm tryna win fuck only being a nominee  
I'm a one of one, Russ is an anomaly  
Coming to your city and boosting its economy

No fake shit against me shall prosper  
Yes I came I saw I conquered  
No fake shit against me shall prosper  
Yes I came I conquered  
And they don't wanna see you win  
So its fuck them till the end  
And they always gonna hate  
Always gonna have some shit to say  
And they don't wanna see you win  
So its fuck them till the end  
And they always gonna hate  
Always gonna have some shit to say

Just live your truth and do you  
They hate honesty boo hoo  
Just count up all your blessings  
Big or small they're still all blessings

Three accounts each over a milli  
Rap game so crazy if I'm sober I'm silly  
Yeah I drink, yeah I smoke  
But that's natural elixirs  
You live like your future ain't in the picture  
I'm high up out in Malibu  
The road to real wealth is always paved with different avenues  
The difference in dividends  
Is multiple businesses  
I got end of year goals too big for Christmas lists  
I'm dropping these jewels  
I'm breaking the rules  
I take your negativity and I use it as fuel  
These rappers are food  
Yeah I'm still hungry  
I own apartment complexes that's real money

No fake shit against me shall prosper  
Yes I came I saw I conquered  
No fake shit against me shall prosper  
Yes I came I conquered  
And they don't wanna see you win  
So its fuck them till the end  
And they always gonna hate  
Always gonna have some shit to say  
And they don't wanna see you win  
So its fuck them till the end  
And they always gonna hate  
Always gonna have some shit to say
