Shots

Russ

!llmind put the loop on

No one told me that these shots start addin' up (No)
No one told me I should stop, that I've had enough
And I'm a little fucked up, but I think I'll be okay
Either way, I'll be back, tomorrow's another day (Yeah, yeah), yeah

Yeah, I'm nicked up and I'm bruised from the shit pumped throug h the news
Need my dick sucked before noon, need a twist up around two
If I give up then I lose, so I sit up, make a move
Need a drink up, make a tune, what I think of comes true
So let me focus
You talkin' way too much, it's midnight, let me roll this
Unless you tryna fuck, don't hit me up, you know this
I know it's harsh, but life is different now
You view me as a picture now, this isn't how I picture now
Sun is shinin' in the studio and I don't got no windows
Those are just my angels, I'm surrounded, they just tip-toe
They might be subtle, but they're there
So I don't think it's fair to say that life is unfair, yeah

No one told me that these shots start addin' up (No)
No one told me I should stop, that I've had enough
And I'm a little fucked up, but I think I'll be okay
Either way, I'll be back, tomorrow's another day (Yeah, yeah)

Somewhere eatin' pasta, countin' lot of dollars
Movin' like a politician, don't approach me
I'm at the Kahala, smokin', eatin' guava
This is what you call the life, if you know me
Then you're right here smokin', eatin' guava, laughin' with me too (Too, yeah)
I thought I was gonna die around the time that I made Zoo (It's true, yeah)
Yeah, yeah, I kept a smile plastered
Let's switch shoes, me and you, we gon' see who runs a mile fas ter
I bet it's me
You would think I'm sellin' dog food how they jealous of my ped igree
They shot me, I ain't rest in peace, I'm still standin', yeah

No one told me that these shots start addin' up (No)
No one told me I should stop, that I've had enough
And I'm a little fucked up, but I think I'll be okay
Either way, I'll be back, tomorrow's another day (Yeah, yeah, y

eah)
