

Some Time

Russ

Yeah
Mhmm
No, no, no
Yeah, yeah, yeah, yeah, yeah
Yeah, yeah

Please don't call my phone I need some time
Just to sit and think about my life
It's been every day nonstop every night
I just need some time, oooh
Please don't call my phone I need some time
Just to sit and think about my life
It's been every day nonstop every night
I just need some time, oooh

Please don't call my phone I don't got time to talk today
Facetimin' without appointments musta lost your way
Haven't even had the time to count the dollars made
I work on vacation, I don't take no holidays
I don't know what sleep is, I've been up since "Chain Hang Low"
Body rollin' all night, that's a place that they can go
Still ain't had a day off, life been chaos, melee mode
I just need some time, sometimes I wish that they made clones

Please don't call my phone I need some time
Just to sit and think about my life
It's been every day nonstop every night
I just need some time, oooh
Please don't call my phone I need some time
Just to sit and think about my life
It's been every day nonstop every night
I just need some time, oooh

Saw you turn your backs
Just to go and get a bag
I'm the best you ever had
Now there ain't no coming back
This ain't gonna work, I'm too focused on my work
I just need some time, oooh
I ain't got time to talk small town shit
Diemon.com got all my hits
Lookin' at the world like it's on my shit
I ain't got time to talk all my shit
But I'm gonna try 'til the casket closes
Until they give me my roses
I just need some time, oooh

Please don't call my phone I need some time
Just to sit and think about my life
It's been every day nonstop every night
I just need some time, oooh
Please don't call my phone I need some time
Just to sit and think about my life
It's been every day nonstop every night
I just need some time
