

Summer At 7

Russ

Girl you look like summer at 7
Yea I think I'm in heaven
I can't get you outta my mind
I was movin' real fast
Till you walked right past
Did you know you can slow down time?
I don't mind
Wasting time with you cause that's not
Wasting time it's true

I feel like we met before
I see it every time that I look in your eyes
I feel like you left before
I see it every time that I look in your eyes

You got it
Go head flaunt it
I could watch you all day
You got it
Ain't no stoppin'
I love you every step of the way

When you fall face down
I will fall down too
And hold you
I will listen
I been waitin' on you
Since I before I knew you
Were missin' were missin'

Girl you look like summer at 7
Yea I think I'm in heaven
I can't get you outta my mind
I was movin' real fast
Till you walked right past
Did you know you can slow down time?
I don't mind
Wasting time with you cause that's not
Wasting time it's true

You do something
I'd be bluffing
If I resist you
More than fucking
This is loving
This is something new

I refuse to recognize it could go bad
Emotionally and physically I swear I'm a nomad
I just need stability
Point me where homes at
Why I feel like that might just end up
Where we're both at baby

When you fall face down
I will fall down too
And hold you

I will listen
I been waitin' on you
Since I before I knew you
Were missin' were missin'

Girl you look like summer at 7
Yea I think I'm in heaven
I can't get you outta my mind
I was movin' real fast
Till you walked right past
Did you know you can slow down time?
I don't mind
Wasting time with you cause that's not
Wasting time it's true
