

Take You Back

Russ

Take you back, who am I if I can't take the heat?
Take you back, let's be real, 'cause you've takin' back me
This is hard, but I love you, we fuck up, that's just life
Take me back, I take you back, yeah

Young and in love so we prone to mistakes
I ain't gon' front, like I know what it takes
'Cause I fucked up, then you fucked up
Now, it's fucked up, goddamn
Road a little bumpy and we just started drivin'
Love almost ended and we just started tryin'
Took a leap of faith, still fallin', fallin'
Tell me when it's supposed to start to feel like flying
Don't do me bad, don't prove me wrong
Don't tell me that you movin' on
I can't take another heartbreak (Oh)

Take you back, who am I if I can't take the heat?
Take you back, let's be real, 'cause you've takin' back me
This is hard, but I love you, we fuck up, that's just life
Take me back, I take you back, yeah

Take you back, why should I take you back?
When you the one that fucked this up yea
You the one that turnt this out
And I know you that young and you rich and you gettin it
I'm too raw of a bitch, to be moved, been with distance
That's not my mission, yeah, that's why you trippin'
Distance hittin different, it's not your kind of tension
But I, I, I, I, I love you, but I don't love ridin' this ride
You know it ain't right

Take you back, who am I if I can't take the heat?
Take you back, let's be real, 'cause you takin' back me
This is hard, but I love you, we fuck up, that's just life
Take me back, I'll take you back, yeah
Take you back, who am I if I can't take the heat?
Take you back, let's be real, 'cause you takin' back me
This is hard, but I love you, we fuck up, that's just life
Take me back, I take you back, yeah

You know you can tell me anything
I'll never judge, I'll just agree
Cuz I'm guilty of all the same things
I want you to be just who you are
You can show me all of your scars
