

# That's My Girl

Russ

Yeah, that's my girl  
You know just what to do  
(Fuck, right there)  
Can't take my eyes off of you  
(You look so good)  
I love watching you take it  
(I knew you could)  
I love watching you taste it  
That's my girl  
You my little angel  
That's my girl  
But you ride me like hell  
That's my girl  
Maybe I should thank you  
That's my girl  
'Cause you take it so well  
That's my, that's my girl

Yeah, thinkin' 'bout the time you almost made my heart stop  
I love it when you use your mouth as an alarm clock  
Doesn't matter if I'm tired I'ma see it through  
Real men still wear pink, and we eat it too  
Good girl, look at you go crazy  
Eyes on me when you swallow my babies  
Put your hands behind your back  
I don't do drugs, but I'll give you a little smack  
I can see the waves on your booty, I'm surfin'  
I like when you keep the same energy in person  
You get a different type of nasty when you know it's all yours  
I love it when you get on all fours

Yeah, that's my girl  
You know just what to do  
(Fuck, right there)  
Can't take my eyes off of you  
(You look so good)  
I love watching you take it  
(I knew you could)  
I love watching you taste it  
That's my girl  
You my little angel  
That's my girl  
But you ride me like hell  
That's my girl  
Maybe I should thank you  
That's my girl  
'Cause you take it so well  
That's my, that's my girl

Yeah, remember fallin' off the bed? We were Hennessy thrown  
She said, "How could I forget? This is memory foam"  
I'ma let it be known that you're mine  
(Whose is it?)  
Pussy got lips, so of course I'm gonna kiss it  
Use your words, say you want me inside you  
That's my girl, nobody else does it like you  
Keep goin', keep goin', keep goin'

Is it shallow if I say I love the way you deepthroatin'?  
We can use toys, we on some grown shit  
Diamonds ain't a girl's best friend, but a rose is  
Don't stop, baby girl, you gotta earn it  
Here you go, girl, you deserve it

Yeah, that's my girl  
You know just what to do  
(Fuck, right there)  
Can't take my eyes off of you  
(You look so good)  
I love watching you take it  
(I knew you could)  
I love watching you taste it  
That's my girl  
You my little angel  
That's my girl  
But you ride me like hell  
That's my girl  
Maybe I should thank you  
That's my girl  
'Cause you take it so well  
That's my, that's my girl
