

The Boss

Russ

Okay this sound like
A mountain [?]
Two blunts, two cups, this is Noah's ark
I'ma take it slow but never wait my life out
Motherfuckers know I drink dark and light gas
In my mental paradise, you ain't allowed
I locked the door and threw away the key
You can hate me now but you gone love me later
My momma told me "Grow up"
I said "I'm gonna make it", being me: giving no fucks
'Til I'm six feet in the ground
Bury me with the beats and some freaks from the town

You should know by now (Yeah)
You should know by now
You should know by now, yeah, yeah

Okay, I sit back, sip Henny
Kicks raps, smoke Fenny
Don't envy, I'm so ready like an old Chevy, goddamn
The beast is out the cage
And I'm lurking with a purpose
Thank God I escaped
You claimed to be expensive
But you got a cheap taste
Smoking on some cookie
That's the shit that we blaze
Make beats then ride around with both middle fingers high
I do this shit for me, myself and your boy I
When the boss speaks look your boy in the eyes
And when my beat drops make noise 'til you die

Yeah, uh
'Cause you should know by now
