

# The Getaway

Russ

Yeah

Wake up feeling like you need to getaway  
Smoking, drinking, hoping for some better days  
Stay down, stay down, stay down (Yeah)  
Wake up feeling like you need to getaway  
Smoking, drinking, hoping for some better days  
Stay down, stay down, stay down

Open up your mind when I speak  
Drink up, stop asking me for weed  
It's gone be a long ride if you're tryna go that way (That way)  
You robbing me of my no sympathy  
My card's the bat cape so let me entertain you with my riddles  
You're a dime but you associate with niggles  
Selling quarters, you're pinching for a fucking penny  
I'm feeling fickle  
About even fucking with you a little (Damn)

But we're still just cruising  
I might be winning but you're still losing (Damn)  
The fuck I'm gone do?  
The fuck you gone do?  
But we're still just cruising  
I might be winning but you're still losing (Damn)  
The fuck I'm gone do?  
The fuck you gone do?

Wake up feeling like you need to getaway  
Smoking, drinking, hoping for some better days  
Stay down, stay down, stay down (Yeah)  
Wake up feeling like you need to getaway  
Smoking, drinking, hoping for some better days  
Stay down, stay down, stay down (Yeah)

Yeah, yeah  
Hey y'all ain't from me in a year and I'm sorry (Sorry)  
I ain't had a bet in a year  
And that's probably another reason why depression keep on killing me softly,  
yeah  
Talk to this [?], he's telling me that I'm godly, yeah  
Say he's mistaken, he's inches away from breaking the calm  
Inches away from breaking past that moment of silence  
[?] chrome and an iron, highest prison population  
Instagramming with Davis, shoot a porno on Vevo  
Ain't no different than banging  
Making quarters with Cee-Lo's  
We on the 3 like Kevin Durant  
An ounce of this devilish plant  
And enough Whitney to call Nino minor  
Girls Love Beyonce, fuck it, Girls Love Beyonce  
I'm in love, it's feels like diamonds and bitter coffee  
Smoking on yesterday's diamonds while thinking I'm godly  
While she mumbles how I wasn't a God who tumbled Goliath  
I just

Yeah

Wake up feeling like you need to getaway  
Smoking, drinking, hoping for some better days  
Stay down, stay down, stay down (Yeah)  
Wake up feeling like you need to getaway
