

THINKTOOMUCH

Russ

Okay, maybe I think too much but that's on me (That's on me)
Hey, maybe I drink too much but that's on me (That's on me)
Maybe my problem is me, ha, my problem is me
My problem is me, yeah, I'll admit (Yeah, I'll admit, yeah, I'll admit)

Tryna turn my brain off, wish that I was braindead
"Can't believe you just said that", is what my brain said (What my brain said)
After every convo now, I'm tryna fight me
Thinkin', "Did I do too much, do they like me?" (Do they like me?)
It wasn't like this when nobody gave a fuck about me
Funny 'cause I'm worried that nobody gives a fuck about me (Fuck about me)
Just got a brand new bottle and I bet that it won't be here tomorrow with me

Okay, maybe I think too much but that's on me (That's on me)
Hey, maybe I drink too much but that's on me (That's on me)
Maybe my problem is me, ha, my problem is me
My problem is me, yeah, I'll admit (Yeah, I'll admit, yeah, I'll admit)

Hello, hello, Mister Mind, do you mind, do you mind, just turnin' off? (Turnin' off)
It's been a minute since I had a minute to myself, I really just wanna get lost (Wanna get lost)
Take another shot, make it all stop
Let's get on the phone, I hope the call drops
Just got a brand new problem and I bet that it'll be here tomorrow with me

Okay, maybe I think too much but that's on me (That's on me)
