

Work This Out

Russ

I just wanna work this out and be good
Don't you wanna work this out, we should
Yeah, yeah
Yeah, yeah

'Cause I just wanna work this out
Don't you wanna work this out?
Maybe we can meet up later
Tell me if you free'd up later

These arguments got me messed up
'Cause I just learn about myself and I'm fed up
Fed up, fed up, fed up, fed up
Fed up, fed up, fed up, fed up
We need to learn how to fight, yeah
Before we burn out our light, yeah
Fed up, fed up, fed up, fed up
Fed up, fed up, fed up, fed up

Something gets said and I react bad yea I cross the line too often
You tell me that I got you fucked up and you start walking
Said ain't no more talking, that you need your space now
Build your trust in me and when I hurt you it just breaks down

I just wanna work this out and be good
Don't you wanna work this out, we should
Yeah, yeah
Yeah, yeah

I just wanna work this out
Don't you wanna work this out?
Maybe we can meet up later
Tell me if you free'd up later

Let's get out of town, we been going round and round
There's a hotel in the south of Virginia
Make it a road trip, we'll listen to old shit
You tell me that it's hard to forgive ya
Girl I know, I know, I know (Girl I know)
And I won't, I won't, I won't (Girl I won't)
Act like it's easy
Oh, act like you need me (act like you need me)

I just wanna work this out and be good
Don't you wanna work this out, we should
Yeah, yeah
Yeah, yeah

I just wanna work this out
Don't you wanna work this out?
Maybe we can meet up later
Tell me if you free'd up later

Work this out, work this out
Work this out, work this out
Work...
Work this out, work this out

Work...
Work this out, work this out
Work...
Work this out, work this out
Work...
Work this out, work this out
Work...
Work...
