

## Work This Out

Russ

I just wanna work this out and be good  
Don't you wanna work this out, we should  
Yeah, yeah  
Yeah, yeah

'Cause I just wanna work this out  
Don't you wanna work this out?  
Maybe we can meet up later  
Tell me if you free'd up later

These arguments got me messed up  
'Cause I just learn about myself and I'm fed up  
Fed up, fed up, fed up, fed up  
Fed up, fed up, fed up, fed up  
We need to learn how to fight, yeah  
Before we burn out our light, yeah  
Fed up, fed up, fed up, fed up  
Fed up, fed up, fed up, fed up

Something gets said and I react bad yea I cross the line too often  
You tell me that I got you fucked up and you start walking  
Said ain't no more talking, that you need your space now  
Build your trust in me and when I hurt you it just breaks down

I just wanna work this out and be good  
Don't you wanna work this out, we should  
Yeah, yeah  
Yeah, yeah

I just wanna work this out  
Don't you wanna work this out?  
Maybe we can meet up later  
Tell me if you free'd up later

Let's get out of town, we been going round and round  
There's a hotel in the south of Virginia  
Make it a road trip, we'll listen to old shit  
You tell me that it's hard to forgive ya  
Girl I know, I know, I know (Girl I know)  
And I won't, I won't, I won't (Girl I won't)  
Act like it's easy  
Oh, act like you need me (act like you need me)

I just wanna work this out and be good  
Don't you wanna work this out, we should  
Yeah, yeah  
Yeah, yeah

I just wanna work this out  
Don't you wanna work this out?  
Maybe we can meet up later  
Tell me if you free'd up later

Work this out, work this out  
Work this out, work this out  
Work...  
Work this out, work this out

Work...  
Work this out, work this out  
Work...  
Work this out, work this out  
Work...  
Work this out, work this out  
Work...
