

All Fall Down

Russell Dickerson

5 across midnight, dress skin tight, room 203
You reach into my pocket, unlock it, hands all over me
3 little words, do not disturb, hanging from the handle
Feeling this fire, burning all night, like that candle

So baby let it all fall down
Yeah just let it all fall down
That zipper on your black dress
Jimmy Choo necklace
Red bottom high heel shoes
Purse glittering gold
Baby, I don't want
Nothing on me but you
So let it all fall down

We spent all night downtown, now it's time to get down to you a
nd me
Let your worries and your cares and your sugar brown hair just
pour all over me

So baby let it all fall down
Yeah just let it all fall down
That zipper on your black dress
Jimmy Choo necklace
Red bottom high heel shoes
Purse glittering gold
Baby, I don't want
Nothing on me but you
So let it all fall down

3 little words, do not disturb, hanging from the handle
Let it all loose, from your hair to your shoes, tryna get a han
dle

So baby let it all fall down
Yeah just let it all fall down
That zipper on your black dress
Jimmy Choo necklace
Red bottom high heel shoes
Purse glittering gold
Baby, I don't want
Nothing on me but you
So let it all fall down
Won't you let it all fall down
