

# Big Wheels

Russell Dickerson

Big wheels, backroads and cold beer  
Old school, straight country gold here  
That's just the way that we roll here  
Big wheels, backroads and cold beer  
Green heads, white tails and long beards  
Long johns, jon boats and John Deere  
We stick to shit that we know here  
Big wheels, backroads and cold beer

To get inside, you gotta jump  
We got a green handle at the pump  
And you can hear us before we rollin' up  
If it's like that where you're from  
Come on and say

Big wheels, backroads, and cold beer  
Old school, straight country gold here  
That's just the way that we roll here  
Big wheels, backroads and cold beer  
Green heads, white tails and long beards  
Long johns, jon boats and John Deere  
We stick to shit that we know here  
Big wheels, backroads and cold beer

22s and 33s, yeah  
Outside dirty, inside clean  
We all drinkin' Natty like it's lean  
Holla back if you know what I mean, yeah  
Cuz we rollin', we rollin', we rollin' it all night  
We go and we go and we go at it all night  
In them out skirt, skirts and we all about that life  
If you're raised that way, y'all raise 'em up high for

Big wheels, backroads and cold beer  
Old school, straight country gold here  
Daddy's farm, it ain't gettin' sold here  
Big wheels, backroads and cold beer  
Green heads, white tails and long beards  
Long johns, jon boats and John Deere  
We stick to shit that we know here  
Big wheels, backroads and cold beer  
Aw, big wheels, backroads and cold beer
