

I Remember

Russell Dickerson

Mhm, Yeah Yeah
We stayed up all night long
And drank your roommate's alcohol
But I don't think we ever paid her back
Sharing swisher sweets and all our crazy dreams
I kind of miss the days it felt like that
Two first time hearts, looking back baby we were clueless
But we fell so hard, like we knew what we were doing

And I remember the nights when we
Were young, dumb, and wild and free
When I close my eyes, I can see you in my sweatshirt
Dancing around that college bar
These days I don't know where you are
But I get to keep these memories forever
Oh, I remember
Oh, I remember
Yes, I do

I still can't hear third eye blind
Without thinkin' bout that night
We bought lawn seats, but we never made it in
Cause we couldn't stop making out
On the hood of my chevy stepside
We sang Doo doo doo, doo doo-doo
While spinning you in those headlights

I remember the nights when we
Were young, dumb, and wild and free
When I close my eyes, I can see you in my sweatshirt
Dancing around that college bar
These days I don't know where you are
But I get to keep these memories forever
Oh, I remember
I remember

Two first time hearts, looking back baby we were clueless
But we fell so hard, like we knew what we were doing

And I remember the nights when we
Were young, dumb, and wild and free
When I close my eyes, I can see you in my sweatshirt
Dancing around that college bar
These days I don't know where you are
But I get to keep these memories forever
Oh, I remember
Oh, I remember

Oh, dancing around that college bar
These days I don't know where you are
But I get to keep these memories forever
Oh, I remember
Oh, do you remember yeah
