

Ride The Wave

Russell Dickerson

(And I just wanna ride the wave)

She only here for the summer
Stayin' on the couch at her best friend's house
Three months two streets down, yeah

She said she came here to party
Wasn't lookin' for nobody
Never thought I'd meet somebody like you, yeah
Now we're dancin' by the ocean
No idea where this is goin'
But I got nothing else left to lose

And I just wanna ride the wave
Told me that she loved me but she'll never stay, ay
And I just wanna ride the wave
Hold my breath, I'm divin' in anyway, ay
And I just wanna ride the wave
(And I just wanna ride the wave)

Maybe it'll last for the summer
Maybe it'll last just one more night
One more kiss will be just fine

Yeah, she said she came here to party
Wasn't lookin' for nobody
Never thought I'd meet somebody like you, yeah

And I just wanna ride the wave
Told me that she loved me but she'll never stay, ay
And I just wanna ride the wave
Hold my breath, I'm divin' in anyway, ay
And I just wanna ride the wave
(And I just wanna ride the wave)

Yeah, we're dancin' by the ocean
No idea where this is goin'
But I got nothing else left to lose

And I just wanna ride the wave
Told me that she loved me but she'll never stay, ay
And I just wanna ride the wave
Hold my breath, I'm divin' in anyway, ay
And I just wanna ride the wave
(And I just wanna ride the wave)

And I just wanna ride the wave
(She only here for the summer)
(And I just wanna ride the wave)
