

Something Good

Russell Dickerson

It's been a long day working too late
Beat down like a nail in the ground
Backs aching, hands shaking,
And the boys at work won't stop running their mouths
And it hits me, how you kiss me
Just what I need to get on through
Girl you give me something good,
Something good to come home to

Girl you give me something good,
Something good to come home to
Can't wait to bust down the door
And wrap my arms around you
We'll be dancin' round the kitchen,
Hugging and kissing, I'll lay all my love on you
Girl you give me something good,
Something good to come home to

Well finally, I'm free
Like a bass that broke the line
Engine runnin', hearts thumping
And I feel the butterflies as I jump in my ride
Raising fifteen over passing cars on the shoulder
Like the earn heart to get to you
Girl you give me something good,
Something good to come home to

Girl you give me something good,
Something good to come home to
Can't wait to bust down the door
And wrap my arms around you, yeah
We'll be dancin' round the kitchen,
Hugging and kissing, I'll lay all my love on you
Girl you give me something good,
Something good to come home to, yeahhh

Whoa

Girl you give me something good,
Something good to come home to
Yea you give me something good
Something good to come home to

Girl you give me something good,
Something good to come home to
Can't wait to bust down the door
And wrap my arms around you
We'll be dancin' round the kitchen,
Hugging and kissing, I'll lay all my love on you
Girl you give me something good,
Something good to come home to

I said you give me something good,
Something good to come home to
Alright
