

Animals Love Touch

Rusted Root

I'm gonna find my antenna
Put it on the garbage dump
Now that my world is over I've got to reconstruct
Reconstruct, 'cause animals love touch
Yeah, we love to touch

When I got a glitch, now here's the itch
In my yellow jumpsuit
We're gonna be on the cover with the Indian lovers
Come on and let them lick my wounds
Lick my wounds
Animals love touch
Yeah, we love to love
Come on, give it away
Yeah, we love to touch
Come on, give it away
The monkeyman we touch is invisible today
So people, come on
Sent them all my ways
Sent them all my way
Sent them all my way, my way
Sent them all my way
Sent them all my way
Sent them my way, my way

Come give it up
Come give it up
Come give it up (Give me, give me all, see, one, two, three)
Come give it up (I think I'm free)
Come give it up (You can do me better, even in that sweater)
Come give it up (Oh, you're a hairy one, you animal)

Animals love touch
Yeah, we love to love
Come on, give it away
Yeah, we love to touch
Come on, give it away
The monkeyman we touch is invisible today
