

## Something's On My Mind

Rusted Root

Everybody's got a blooper, lengths on time,  
Telling only lies.  
I was sleeping upon on this open road  
When I lost track of time  
'Cause your smile was so fun.

Something's on my mind, I'm telling you,  
Please, don't go.  
I'm doing better now,  
Said I'm doing better, does it show?  
I'm doing better and I'm feeling alright,  
Gonna get our sun through the night.  
Tonight, tonight.

I'm all alone, thinking of my desolate flower.

I don't know if you are gonna be the one  
To perform all my love on,  
But we've tried and we've tried so many ways,  
Now we least know just what the hell we are not.

'Cause something's on my mind, I'm telling you,  
Please don't go.  
I'm doing better now, said I'm doing better,

Does it show?  
I'm doing better and I'm feeling alright,  
I'm gonna get our sun through the night.  
Tonight, tonight.

I'm all alone, thinking of my desolate flower.

Everybody's got a blooper, lengths on time,  
Telling only lies.  
I was sleeping upon on this open road  
When I lost track of time  
'Cause the moss was so fine.

I'm doing better now,  
I'm doing better, does it show?  
I'm doing better now, I said I'm doing better,  
Don't you know?  
I'm doing better and I'm feeling alright,  
I'm gonna get our sun through the night,  
Tonight, tonight,  
Tonight,  
I'm all alone, thinking of my desert flower.
