Ruston Kelly

I took too many pills again  
I took too many pills again  
Blacked out for a week didn't eat, didn't sleep  
Came to, hit it all again  
She's probably gonna be pissed  
She's probably gonna be pissed  
Throw my shit in the yard and key my car  
If I show up to her house like this

Oh, it was a dark December  
Not even angels came around  
I was too stoned to remember  
Come too far to turn back now  
Come too far to turn back now

Feel like I'm gonna fall down  
I feel like I'm gonna fall down  
But I was born and raised in an earthquake state  
So I'm better on shaky ground  
What the hell am I gonna do now?  
The hell am I gonna do now?  
Got a half lit smoke good, God I'm broke  
But I gotta make it back to Germantown

Woah, it was a dark December  
Not even angels came around  
I was too stoned to remember  
Come too far to turn back now  
Come too far to turn back now

Baby won't you take me back?  
Baby won't you take me back?  
It ain't like I'm trickin' on the corner for crack  
Baby won't you take me back?

Oh, it was a dark December  
In the city of angels, I was coming down  
I was too stoned to remember  
Come too far to turn back now  
Come too far to turn back now
