

# Radio Cloud

Ruston Kelly

Call me a misfit  
King of the crows  
Out on the hills  
Or the telephone poles  
Hang in the silence  
Till I got something to say  
Who was I then  
Who the hell am I now  
I'll do whatever  
Till I figure it out  
Looking straight  
The pain's gonna show me the way

Climb down the radio cloud  
I remember what my name is now  
I cut the water lay the roadway down  
You can call me Moses  
Don't take whatever they took  
It's just a way that we all get hooked  
Thinking everybody's only looking  
At all the pretty roses  
Around  
Around

Unstuck  
Didn't know I been tied  
Deep in the virus  
Sign of the times  
How could you know  
If you haven't been looking up  
The world shakes  
When the truth breaks out  
The fire takes  
What ain't worth a damn now  
The smoke cleared  
The wind came to blow me away

Climb down the radio cloud  
I remember what my name is now  
I cut the water lay the roadway down  
You can call me Moses  
Don't take whatever they took  
It's just a way that we all get hooked  
Thinking everybody's only looking  
At all the pretty roses  
Around
