

# Wayside

Ruston Kelly

Everybody's shouting from their phone  
'Cause they think they know  
Something that you don't  
Yeah, sure be an expert  
I don't wanna be an expert  
I just wanna lay next to her and vibe  
I don't wanna be lone wolf  
Howling to an old moon  
Looking for a new truth  
Buried in the stars in the sky  
Every brighter star I've seen is burning in your eyes

Suddenly, I only know one thing  
And it's all I need to know  
For a lifetime  
I belong with you  
You belong with me  
We'll let the rest just fall by the wayside

You can call it selfish  
I can't really help it  
I guess I'm dumb or crippled by intelligence  
Trying to make sense of a big mess  
Taking supplements 'cause I can't rest or sleep at night  
I don't know about you  
But I know about me  
Everywhere I turn  
There's a new enemy  
24/7 news feed World War 3  
All I want is three minutes of quiet

And suddenly  
I know everything  
And absolutely nothing at the same time  
But I belong with you  
And you belong with me  
We'll let the rest just fall by the wayside

Oh, my head it might explode  
The more I swipe and scroll  
I don't know nothing  
But there's an anxiousness  
That's tangled up my soul  
So let the world just blow up

As long as I know  
I am yours and you are mine  
We can let the rest  
Just fall by the wayside  
Let it all fall by the wayside  
Let it all fall by the wayside

And suddenly  
I know everything  
And absolutely nothing at the same time  
But I belong with you  
And you belong with me

We'll let the rest just fall by the wayside

Oh, my head it might explode  
The more I swipe and scroll  
I don't know nothing  
But there's an anxiousness  
That's tangled up my soul  
So let the world just blow up

As long as I know  
I am yours and you are mine  
We can let the rest  
Just fall by the wayside  
Let it all fall by the wayside  
Let is all fall by the wayside  
Let is all fall by the wayside  
Let is all fall by the wayside
