Situation

Ruth B.

(Mmm yeah, yeah, that melody you were just...)

I've been wondering what's been going on, what's our situation?
Hanging on and on and on to every conversation
I wanna let go but it's so complicated
Baby, all I'm saying is, what's the situation?

Ooh what's the situation?

You're always full of jokes, I'm kind of soft spoke
But when we get together, I feel understood
You say we're having fun then you say that I'm the one
But this is so dumb, got me so confused

Wish I knew exactly what you meant
Wish is wasn't messin' with my head
Right person, wrong time
I'm dying

I've been wondering what's been going on, what's our situation?
Hanging on and on and on to every conversation
I wanna let go but it's so complicated
Baby, all I'm saying is, what's the situation?

Ooh, what's the situation?

You've got pretty eyes, but I can tell they lie
Every now and then when you say we're good
But I feel so myself, don't want it with no one else
Even though I should

Wish I knew exactly what you meant
Wish it wasn't messin' with my head
Right person, wrong time
I'm dying

I've been wondering what's been going on, what's our situation?
Hanging on and on and on to every conversation
I wanna let go but it's so complicated
Baby, all I'm saying is, what's the situation?

If you love me let me know or let me go, let me go or let me know
If you love me let me know or let me go, let me go or let me know
If you love me let me know or let me go, let me go or let me know
If you love me let me know or let me go, let me go or let me know

I've been wondering what's been going on (let me go, let me go, let me know)
I've been wondering what's been going on (let me go, let me go, let me know)
I've been wondering what's been going on (if you love me let me know or let me go, let me go or let me know) I've been wondering what's been going on (love me, let me know, let me know)
What's the situation?
