

# Spaceship

Ruth B.

If I built a spaceship  
Would you go to Mars with me  
Go that far with me  
If I take you places  
That you've never been before  
Would you stay for more?  
When days are difficult  
And you want a miracle  
I'll build a spaceship for you  
'Cause some days I run away  
I hope you run with me  
Fly away with me too, ooh-oooh

And we're all alone  
I hope you feel at home  
Wherever we find ourselves  
You can just be yourself

Close your eyes  
And feel me here  
It's all in your mind  
All of the time  
Let it go  
And let me know  
I'm all in your mind  
All of the time

So tell me what keeps you up  
All through the dead of night  
Then I'll make it right  
And when we're lost in the stars  
I hope they fill your heart  
With all of the light

And we're all alone  
I hope you feel at home  
Wherever we find ourselves  
You can just be yourself

So close your eyes  
And feel me here  
It's all in your mind  
All of the time  
Let it go  
And let me know  
I'm all in your mind  
All of the time  
  
All of the time  
All of the time

If I built a spaceship  
Would you go to Mars with me  
Go that far with me  
If I take you places  
That you've never been before  
Would you stay for more?
