

Unrighteous

Ruth B.

I feel bad inside knowing this is all built on lies
I feel like an awful person
'Cause end of the day we're forcing love
That don't exist

This is so unrighteous
This is so not like us
Love at first sight
That was gone by the end of the night
We both know that this is going to end
Its only time and touch we spend
No chance we're going to make it
But baby can we fake it?
'Cause even though I know you're not the one
This has really been a lot of fun, mmm

I know I don't really like you
But I still choose to stay
I know you don't really care this is just a phase
But you still play the part so well

This is so unrighteous
This is so not like us
Love at first sight
That was gone by the end of the night
We both know that this is going to end
Its only time and touch we spend
No chance we're going to make it
But baby can we fake it
'Cause even though I know you're not the one
This has really been a lot of fun, mmm

This is unrighteous
This is so not like us
Love at first sight
That was gone by the end of the night
We both know that this is going to end
Its only time and touch we spend
No chance we're going to make it
But baby can we fake it
'Cause even though I know you're not the one
This has really been a lot of fun, mmm

This is so unrighteous
This is so not like us
This is so this is so this is so
Unrighteous
