RuthAnne

This feeling got me strange  
I'll never be the same  
I don't want nobody else  
I wanna take your name  
Put your picture in my chain  
I just want you all to myself

You don't have to worry my eyes are only for you  
I'm mesmerized whatever you do  
I'm running out of ways there's no better way I can say  
It I just wish you would believe that it's true

I really fuckin' love you, yeah  
I really fuckin' care for you, darling  
I put no one else above you, yeah  
And I'll go anywhere for you, darling  
I... the stupid little things we do  
Like wakin' up with new tattoos  
I really fuckin' love you, yeah, yeah  
I really fuckin' love you

You know you got a way of making me insane  
Yea, we're crazy but I don't mind  
And I swear everyday I'll find a million ways  
To show you that I'm on your side

You don't have to worry my eyes are only for you  
I'm mesmerized whatever you do  
I'm running out of ways there's no better way I can say  
It I just wish you would believe that it's true

I really fuckin' love you, yeah  
I really fuckin' care for you, darling  
I put no one else above you, yeah  
And I'll go anywhere for you, darling  
I... the stupid little things we do  
That's only between me and you  
I really fuckin' love you, yeah, yeah  
I really fuckin' love you...
