

Liquid

RuthAnne

Oh
Yeah, hey
Oh, oh-eee

Everything you say, you know I don't let it get to me
Oh it's like liquid off my skin and I never let it soak in
All that you portray, you know that I, I don't believe a thing
'Cause it's like liquid on my lips, I lick it off before it sticks

All of this perception
All of this perfection
Can we wash it all away, wash it all away?
Wash it all away, wash it all away
There's no real connection
Surface communication
Can we wash it all away, wash it all away?
Wash it all away, 'cause it's just liquid to me

Oh-oh, hey, yeah

Running through my hands
This dirty dirty never ever land
So pour it up, up in my glass, I drink it down and I let it pass
'Cause it never lasts
In this poisoned world, gotta laugh it off, ha, ha, ha, I'm good
'Cause it's like liquid off my feet, won't drain the life outta me, yeah

All of this perception
All of this perfection
Can we wash it all away, wash it all away?
Wash it all away, wash it all away
There's no real connection
Surface communication
Can we wash it all away, wash it all away?
Wash it all away, 'cause it's just liquid to me

Everything you say, you know I don't let it get to me
Always like liquid off my skin and I never let it soak in

All of this perception
All of this perfection
Can we wash it all away, wash it all away?
Wash it all away, wash it all away
There's no real connection (No)
Surface communication
Can we wash it all away, wash it all away?
(Can we? Yeah, yeah, yeah)
Wash it all away, 'cause it's just liquid to me

Oh, baby
Wash it all away, wash it all away
'Cause it's just liquid
