

# Move Me

RuthAnne

What do you say  
When the ground it shakes  
'Cause you found your place  
And the streets are gold  
And your heart just knows  
It was worth the wait

All the ways that I stood still  
Counting days like bitter pills  
Colors that I never knew  
Came to life when I felt you

Move me the way your love  
It runs all through me, oh, it does  
That's what I call beauty  
The way you move me

I want to paint  
Every line and shape  
All the turns we take  
Eyes won't grow tired  
With the taste of desire  
I will stay inspired

All the ways that I stood still  
Watching time around the wheel  
Colors that I never knew  
Came to life when I felt you

Move me the way your love  
It runs all through me, you know it does  
That's what I call beauty  
The way you move me  
The way you move me  
The way you move me
