

## My Mind (Interlude)

RuthAnne

It was September  
I remember sittin' in your room, writin' songs, talkin' deep  
Wishin' you could do somethin' wrong to me  
But somethin' I could keep  
The energy was cosmic (cosmic) the sun was out  
But the stars were in our eyes  
And the vibe was settin' off fires  
And I was happy to burn alive

When I went home I was replayin' every moment, I wrote a hundre  
d sonnets  
Like a teenager, on my book, I wrote your name on it  
Where there's a will there's a way  
Any time, any place  
I would fly across states  
And the thing is we don't even know each other well  
You could taste like heaven but you could hurt like hell  
And I'm ready, I'm ready to fall

Way you talkin' so hypnotic, got me figured out  
You got me doin' got me dreamin' can't do nothin' 'bout  
And I keep lookin' at my phone when you're far away  
So I feel close to you  
And then the sun is risin' in a different time zone  
And I'm still sittin' in the dark all in this bed alone  
I been wonderin' if you wonder 'bout me when you're gone  
When you're gone

I'm tryna get you off my mind  
'Cause I'm thinkin' 'bout you all of the time  
Tell me how to get you off my mind  
'Cause you're spendin' every night up in mine  
And I just wanna get you off  
My mind, my mind, my mind  
My mind, my mind, my mind, off  
My mind, my mind, my mind  
'Cause you're all caught up in it
