

Safe Place

RuthAnne

You are my safe place
From things that I can't face
When it all gets too much for me
And I'm lost in my anxiety
And if my heart aches
You breathe with me at my pace
When it all gets on top of me
You are my gravity

Thank you for loving my crazy
Thank you for hiding here with me
And thank you for making me face this world again and again

You are my safe place
You forgive all my mistakes
When no one is listening
You hear me when I don't say a thing
You never judge me
Make me laugh when I'm crying
Overdose on anxiety
But you are the remedy

Thank you for loving my crazy
Thank you for hiding here with me
And thank you for making me face this world again and again

I'll be your safe place
Baby, this shit goes both ways
Oh, you know you can talk to me
I'll be your therapy

You are my safe place
From things that I can't face
When it all gets on top of me
You are my gravity
