

Take My Place

RuthAnne

I'm tryna turn off my phone
'Cause it's keepin' me up
I've been lookin', searchin' pictures
And there's so many of her
She's prettier than I thought she would be
I see she's from your hometown
Is she givin' you all that you need?
Are you gonna keep her around?

Tell me, are you touchin' her like you love her tonight?
Oh, just tell me, I deserve to know even though
I have no right

Is she the one who's lighting up your face?
Is she the girl who's gonna change your ways?
Is she the one or is it just some fun, are you tryna fill the empty space?
Or is she the girl who's gonna take my place?
Take my place

I can't help but compare
'Cause she looks way more your type
Is she smarter, better? Is she forever or just for the lonely nights?
'Cause I have lonely nights too
Got someone lyin' next to me and I wish it was you
But you still want her, need her
Or is it sweeter 'cause it's just someone new

Tell me, are you touchin' her like you love her tonight?
Oh, just tell me, I deserve to know even though
I have no right

Is she the one who's lighting up your face?
Is she the girl who's gonna change your ways?
Is she the one or is it just some fun, are you tryna fill the empty space?
Or is she the girl who's gonna take my place?
Take my place

Do you love her 'cause I already hate her, babe
Has she met your mother, ooh, is she a keeper? Ay
Have you finally become the man I knew you could be,
But you won't be for me?

Is she the one who's lighting up your face?
Is she the girl who's gonna change your ways?
Is she the one or is it just some fun, are you tryna fill the empty space?
Or is she the girl who's gonna take my place?
Take my place, take my place
