

# Through It All

RuthAnne

You've seen me reach my limit  
You've seen me hit a wall  
And when I'm close to quitting  
You love me through it all

When I'm not myself  
Down on my luck bout to fall  
You talk me off the edge  
Yeah you love me through it all

The road is winding  
Oh, the stakes are high  
But I'll keep climbing  
When I got you by my side  
When times are testing  
I know who to call  
My worlds a better place  
Cos you love me through it all

You've seen the good, the bad, the ugly  
Every side of me  
But darling it don't phase you  
Cos you know the best of who I can be

When I jump you're jumping right in  
We go deeper than deep  
If love is war your the white flag  
Cos you give me inner peace

The road is winding  
Oh, the stakes are high  
But I'll keep climbing  
When I got you by my side  
When times are testing  
I know who to call  
My worlds a better place  
Cos you love me through it all

(Through the fire  
Through the rain  
Take me higher  
Through the pain)

The road is winding  
Oh, the stakes are high  
But I'll keep climbing  
When I got you by my side  
When times are testing  
I know who to call  
My worlds a better place  
Cos you love me through it all

(Through it all  
It's you and me  
Ah yeah  
You love me through it all)

You've seen me reach my limit  
You've seen me hit a wall  
And when I'm close to quitting  
You love me through it all
