

Lungs

Ruti

In my head my
Words are loud as thunder
But I don't say them
I'm scared they'll lose their power
So you'll never know
I'm alone with the feeling
From where I'm standing
The air is slowly leaving

So you might as well take my lungs away
Cause I can't breathe around you anyway
Breathe around you anyway
You might as well take my lungs away
Cause I can't breathe around you anyway
Breathe around you anyway

I've built you up you
Can't get any higher
Now I can't reach you
Blinded by desire
What have I done
To the love that I'm feeling
From where I'm standing
It don't have a ceiling

So you might as well take my lungs away
Cause I can't breathe around you anyway
Breathe around you anyway
You might as well take my lungs away
Cause I can't breathe around you anyway
Breathe around you anyway

Oh I try
But my
Words are wasted
Suffocated
Yes I try
But I cannot find
The breath to say them

So you might as well take my lungs away
Cause I can't breathe around you anyway
Breathe around you anyway
You might as well take my lungs away
Cause I can't breathe around you anyway
Breathe around you anyway
You might as well take my lungs away
Cause I can't breathe around you anyway
Breathe around you anyway
I can't breathe around you anyway
Breathe around you anyway
