

Monster

Ruti

I prayed I would forgive you
But the bitterness persists
Through the cracks in my religion
I fell into the pit

'Cause you only make it worse
Everything you touch just burns away
Rots and decays
And I have to live in the hell that you made
'Cause you only make me hurt
Every scar you left begins to feed
The monster in me
'Cause I can't forgive what I cannot unsee

My lover was a liar
And my ignorance was bliss
Till my house was set on fire
By the hand that I once kissed

'Cause you only make it worse
Everything you touch just burns away
Rots and decays
And I have to live in the hell that you made
'Cause you only make me hurt
Every scar you left begins to feed
The monster in me
'Cause I can't forgive what I cannot unsee

You only make me hurt
Everything you touch just burns away
And turns into pain
And I have to live in the hell that you made
