

Nothing's Easy

Ruti

I reach for you
But there's nothing I can cling to
So I slip away
Like I do every day
And I fill the space
Anything to stop the heartache

Ooh, I try to be
A bit less lonely
When there's more than nothing
Nothing's easy
Oh, ooh

A bittersweet goodbye
A little longer in my room, I cry
To drop me out of place
And throw me off world again
But I find a way
To remind myself that things can change

Ooh, I try to be
A bit less lonely
When there's more than nothing
Nothing's easy

Oh, I try to be
A bit less lonely
Now I find there's something
Nothing's easy

Oh, oh, ooh
Ooh
Oh, ooh
