

See Through

Ruti

You're so beautiful, it's unnatural
I just wanna know you're real
It's so difficult to be vulnerable
But I met my half of the deal

So meet me there, I won't tell

I want to see through you
It's only skin and bones, skin and bones
I let you see through me
I let you underneath
It's only skin and bones, skin and bones

You're so terrible on the telephone
Tell me what I want to hear
But your hands get so cold when it's personal
Holding onto what you fear

I'll meet you there, I won't tell

I want to see through you
It's only skin and bones, skin and bones
I let you see through me
I let you underneath
It's only skin and bones, skin and bones

Skin and bones, skin and bones
Skin and bones, skin and bones
Skin and bones, skin and bones
You're only skin and bones, skin and bones

I want to see through you
It's only skin and bones, skin and bones
I let you see through me
I let you underneath
It's only skin and bones, skin and bones
You're only skin and bones, skin and bones
